# SURVEYS AS A PIECE OF THE INSTITUTIONAL DATA SYSTEM

- The students' satisfaction and employability surveys are part of the University of Barcelona's system for accrediting quality within the framework of the Catalan Agency of Quality (AQU) guidelines and as part of the "Catalan benchmark"
- These surveys are part of the University of Barcelona's institutional survey system and are managed by the Technical Bureau at Rector's office.
- They are the fourth piece of student feedback and are carried out for both undergraduate and master's students.
- These surveys produce three types of reports: general, bachelor's and master's degree and school's reports.

# SURVEYS AS A PIECE OF THE INSTITUTIONAL DATA SYSTEM

- The data is public and is displayed on the website of the Technical Bureau at Rector's office and in the Verification, Monitoring, Modification and Accreditation (VSMA in Catalan) section of the university's faculties and the Catalan Quality Assurance Agency (AQU)
- The system is the same as the other Catalan universities. All of this helps to generate the indicators required by the degree accreditation procedure to monitor its graduates.
- In the case of employability indicators, these are presented in a specific section on the VSMA website
- Some Schools, by using these data, publish their own reports at the website of the "professional careers" office

## VSMA Framework

The VSMA Framework (acronym from the original name of the Framework in Catalan) for the ex-ante assessment, monitoring, modification and accreditation of recognised degrees links together the quality assurance (QA) processes (ex-ante assessment, monitoring, modification and accreditation) that take place throughout the life-cycle of a degree course, the aim being to establish coherent links between all of them and promote greater efficiency in process management.

# TECHNICAL NOTES

FITXA  
TÈCNICA

<b>Població</b>	Titulats i titulades dels ensenyaments de graus i màsters universitaris en la Universitat de Barcelona en el curs 2018-2019
<b>Mètode d'enquesta</b>	Qüestionari digital mitjançant LimeSurvey
<b>Comunicació amb els estudiants</b>	Invitació a través de correu electrònic i missatges de recordatori
<b>Mostra</b>	Graus: 3.202 respostes (40,0% de la població) Màsters universitaris: 1.338 (35,0% de la població)
<b>Nivell de confiança i error</b>	Graus: Per a un nivell de confiança del 95%, l'error és del 1,3 % Màsters: Per a un nivell de confiança del 95%, l'error és del 2,2 %
<b>Període de recollida de les dades</b>	Del 20 de desembre de 2019 al 31 de gener de 2020 per als centres propis. Del 24 de gener al 27 de març de 2020 per als centres adscrits.
<b>Gestió de l'enquesta, anàlisi i tractament de dades</b>	Gabinet Tècnic del Rectorat

- Survey population: previous year graduated
- Survey method: [LimeSurvey](#)
- Contact to the students: invitation letter by email + reminders (for the last two years to foster participation we have been organizing a draw contest)
- [Survey sample \(2018-2019\): 3.202 answers \(40.0% of graduate population\) & 1.338 answers \(35.0% post-graduate population\)](#)
- Statistical confidence level of 95% and error of 1.3% at the degrees level, and 95% and 2.2% at the postgraduate level
- Data collection: about two months
- Matrix elaboration and rapport
